Higher Professional Technical Courses - Websites Construction and Administration

University Politécnico de Leiria
2015

ADDITIONAL ACHIVEMENTS

BEST PAPER AWARD

ENASE 21
16th International Conference on Evaluation of Novel Approaches to Software Engineering
2021

PROFILE

- **Extensive experience** as a freelancer, seeking to transition into a stable, long-term role within a forward-thinking company where I can grow professionally and contribute to innovative projects.
- **Over 10 years of experience** in full-cycle web and mobile development using technologies like Laravel, React, Flutter, etc, working effectively both independently and as part of collaborative teams.
- **Successfully managed** and completed **complex projects** for clients in Portugal, France, Brazil, and Switzerland, showcasing **adaptability** and **technical expertise**.
- Proven **ability to successfully lead** full-cycle development processes, from planning and architecture to final implementation, ensuring **high-quality outcomes** tailored to client needs.

PROFESSIONAL EXPERIENCE

🇨🇦 Versant Web 2024 - Present

- Responsible for the **full development** of applications and REST APIs (interactive **CRM** applications Laravel + React);
- Maintenance and continuous optimization of existing projects.

🇨🇦 Start.Physio - CTO 2024 - 2025

- **Acting as CTO** (Chief Technology Officer);
- Developing and structuring internal **CRM** platform;
- Managing entire process (architectural design to final delivery of features);
- Improved company's internal management capabilities.

🇨🇦 DManager 2023

- Development of a CRM application in Flutter + Laravel designed for managing clients in the hairdressing industry;
- Responsibility for the **frontend** and **backend**;
- Delivering a functional, scalable solution that exceeded client expectations.

🇨🇦 IoT - Home Automations 2022 - 2023

- Developed **intelligent home automation systems** for the control and monitoring of domestic devices;
- Enhanced user comfort, energy efficiency, and security by integrating cutting-edge technology and prioritizing user experience.

🇨🇦 Co-founder - Health Care Startup 2021 - 2022

- **Co-founder** and Full-Stack Developer;
- Development of a **virtual reality game** using **Unreal Engine 4**, designed for the **Health Industry** (created to support memory disorder treatments through interactive and immersive exercises);
- Managed the planning, visual design, and logical implementation, delivering an **innovative therapeutic tool**.
